Oakland Hills Memorial Gardens opened in 1929 as a non-denominational cemetery serving all faiths. Today there are thirty gardens spread over seventyfive acres of rolling hills, overlooking a beautiful lake. Our new Orthodox Garden is situated in a serene wooded location near the edge of the lake. The observing of all cultural customs is encouraged by our staff to ensure a memorable memorial service. This new Orthodox Garden allows families access to continue family heritage down through the generations by securing larger family areas for future generations by relocating additional space to create your family area.

Our new Orthodox Garden has the following benefits:

1. All burial spaces are facing East.
2. Upright memorials (headstones) are allowed.
3. The use of in-ground candle boxes will be permitted.
4. In addition to a memorial, the use of a traditional Orthodox wooden cross is allowed.

Since we are working with the COCC, special introductory options and pricing are available to all parishioners. For further information about burial space, transfers, payment options and Oakland Hills sister cemeteries, please call our counselors for an appointment or visit.
